

Christmas Capers

Dianne Barnden

Finished size – 39” x 49” (wall hanging)

Note

Are you drawn to Christmas themed fabrics? If your stash is bursting with them then this is the ideal project. However, if you do not have a stash of Christmas themed fabrics, the traditional red and green will look as equally stunning.

It is a good idea to purchase some, not all of your needed fabric and once you have begun making your blocks you will see what you need.
